Dear Parents/Carers/Independent Young Person

RE: Attendance and COVID-19

As you would be aware, some states are currently trying to manage significant outbreaks of COVID-19 caused by community transmission. In light of this, I would like to remind everyone on the importance of practicing good hygiene and more importantly staying home if you are not feeling well.

If your young person or yourself as an independent young person is unwell or experiencing flu like symptoms, please keep them home until they are feeling better and we highly recommend that medical advice is sought to ensure wellbeing. In the situation where a doctor is visited, please ensure that a medical certificate is obtained to provide to the school to explain the absence and that it is okay to return to the school community.

We would like to remind you unless it has been clearly indicated that you/your young person will be away on any particular school day, that the school will contact to find out why.

If your young person or yourself as an independent young person is required to undertake a COVID test, to be able to return, a clearance of a negative result will need to be provided to the school. If a positive result occurs the school will need to be informed immediately.

In a situation where the school believes that a young person is exhibiting flu like symptoms the school reserves the right to send the young person home until they are feeling better.

I would like to remind everyone that these steps are all about your safety and the safety of our school communities.

If you have any concerns or questions in relation to this, please don't hesitate to contact the school on (07) 4413 4650 or the Head of Campus.

Yours faithfully

Peter Tracy

Principal
